ARRL SPECIAL SERVICE CLUB

THIS MONTH

CYBERSECURITY FOR AMATEUR RADIO

by Nate Moore, N8MOR

Nate will focus on basic and technical aspects of cybersecurity. Vulnerabilities found and exploited using increasingly powerful Large Language Models (aka "AI") recently appeared as prominent news stories.

Nate Moore is a cybersecurity professional whose work spans digital forensics, incident response, and cyber threat intelligence. He was first licensed in 2020 and now holds an Amateur Extra class license. Nate is also a volunteer examiner and Technician license class instructor.

The meeting will also be held virtually, via the Zoom video system. The meeting access ID and password will be distributed via groups.io email announcement.

We have many accomplished and experienced club members. After all, we are an ARRL Special Service Club! The club is looking for amateur radio or communications topics that you or someone you know could present at a future club meeting.

An alternative might be several short presentations on different topics made by multiple persons.

Please direct your suggestions to info@mdarc.org.

Your contribution is vital for the continued success of MDARC. We are eager to hear from you!

ALL MEMBERS ARE INVITED TO JOIN THE FREE CLUB E-MAIL GROUP AT:

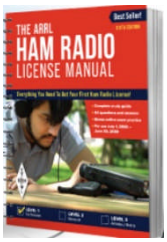
President's Message

Field Day 2026 is now behind us. I hope that many of you took advantage of the MDARC Field Day site at Olympic High School on Salvio Street in Concord. And if not at the MDARC site, that you were able to join another club's activities or listen in from your home.

Now while Field Day is not such a distant past, consider contacting Larry Loomer. KI6LNB with things you like this year and suggestions you would like to see for next year's Field Day.

At the beginning of July, the 6th Edition of the ARRL Ham Radio License Manual became available and this is the Manual MDARC is using for our current Technician License Course. We've been averaging 12 students evenly split between Zoom and in-person.



It has been one of my joys for these last 10 years to work with our MDARC Volunteer Instructional Team providing amateur radio license courses to many students. It is a credit to MDARC to have so many Presenters and Administrators volunteer their time and talents in providing these students with a systematic approach to pass the exam their chosen class of license. At the conclusion of the MDARC's 2026 License Courses, I will be passing the baton to somebody else. Interested in this opportunity to make a major contribution to our Club? Just let me know.

As you are aware, ARRL has called 2026 the Year of the Club and each month QST magazine spotlights a selected club. MDARC has been so honored! During the last several months, we have partnered with ARRL in preparing their article. AND NOW ITS DONE! So, keep looking for the article about MDARC in an upcoming QST magazine issue.

Did you know the Jan, KM6NFC, the MDARC Membership Chairperson cannot read minds? That means that whenever an MDARC member has a change to their address, email, telephone number, callsign, and license class, it is up to them to update their information. It is simple to do. Just go to **mdarc.org** and on the Home screen, select **Member Portal**.

Looking forward to Club elections. It may seem too early to "advertise" for MDARC Board elections, but it is looking like a number of incombents are not planning to run again for 2027. This means that if you are at all interested in taking an active tole in the governance of your Club, this will be a great opportunity to do so. So, wait for information from the Election Committee to nominate yourself and others to fill the positions that will be open.

73, Larry Bradley, KK6QPE

PUBLIC SERVICE EVENT AUGUST 2

The Skyline 50k Running Race in the Oakland Hills

For those of you who are new to the race, Skyline is one of the oldest continuously running 50k races in the United States.

The course starts at the Lake Chabot Marina and travels a clockwise loop through the East Bay Regional Parks to Moon Gate and finishes back at the Lake Chabot Marina. Familiar aid stations being used this year, in order of appearance, are Clyde Woolridge, Bort Meadow, Big Bear, Moon Gate, Big Bear, Bort Meadow and Marciel Road Aid Stations.

We are looking for experienced communicators, and beginning hams who will be teamed up with an experienced ham, at one of six check points along the running route. We will report on the bib numbers of the first three male runners and the first three female runners, as well as the bib numbers of the last five runners. We will also report to net control the bib numbers of any dropped runners and report on the supply needs of the aid station to which we are assigned.

Most assignment locations are drive-up locations. There are a couple of walk-in assignments available as well.

We have been asked to provide communications for this event since cell phone coverage along the race route area is weak to non-existent. Reliable communication is a must for this type of activity in this remote area.

Public service events are a good way for hams of all experience levels to Get-on-the-Air, to practice your communication talents, to serve a worthwhile cause, and to learn and practice the protocols which exist for effective emergency communication.

To ask questions and to be added to the ham radio roster, please contact Larry Loomer KI6LNB, at <laryloomer@yahoo.com>.

Thank you for considering joining us for this event. ——— *Larry Loomer, KI6LNB*

10. Unfinished Business:

10.1 **Summary Log of Motions**: Trevor still needs to click on the link to the archive while signed into his Google account to see if he in fact gets access to the Board meeting minutes. Trevor confirmed that he had tested that, and that he was successful. This completes the tests showing that Board Members can access the archives when signed into their Google account and that people without permission will not gain access to the archives even if they have the correct link.

10.2 **Add verbiage to MDARC Registration section** that indicates that an email address is optional, but without an email address, they will not receive a ballot to elect MDARC Board members and other important information from the Club: Larry KK6QPE stated that this is still pending. Larry KK6QPE asked Grant to take on this task and Grant agreed to do it.

Grant stated that he had not done this yet.

10.3 **Has the webpage been updated?**

How can members indicate that they prefer to be anonymous?

Barbara K6WHY stated that, for membership renewals it is possible to opt for anonymous donations. For the donations link on the MDARC website, Barbara has created new event in Constant Contact for people to indicate whether they prefer their donations to be anonymous or not and also a place to indicate whether they need a receipt for their tax returns. In order to do this Barbara would need to swap out the link from PayPal to Constant Contact. This was agreed to by the Board since no objections were heard.

After further discussion, it was decided that we will provide an option, to remain anonymous or not, for each donation

Grant stated that it is not live yet but that he will follow up.

10.4 **Asset List: Inventory vs Asset?** Dollar cutoff amount. **STATUS REPORT**

TREASURER: Bylaws- "Shall maintain a true and complete account of all Club assets and liabilities including capital items and prepare formal written reports as of June 30 and December 31. These reports shall be published in the Club newsletter." This is still on hold until Barbara is ready to deal with it.

10.5 **ARRL has designated 2026 as the year of the club**

Leanna Figlewski, KC1RMP…Contributing Editor, QST

"ARRL has designated 2026 as the year of the club, recognizing that the growth and development of amateur radio rely on our vibrant community of radio clubs. With that, we are interested in featuring MDARC in one of the QST Club Spotlight columns for 2026.

Below are some questions that focus on MDARC's journey and what makes them an active and successful club to answer at your convenience.

1. What are some ways the club remains active?

2. According to your website, MDARC is participating in 22 public service events this year, and last year they participated in nearly double that. How does the club manage this many volunteer events in a year?

3. What does the club consistently do well that helps to successfully get hams on the air?

4. Of all that the club does, what does leadership think it does best/is most successful with (this can be more than one thing)?

Please let me know if this is something that MDARC would be interested in."

Margaret AJ6LP said that after she had led the development of the document containing the material that we planned to submit to ARRL, she had turned it over to Larry KK6QPE. Larry confirmed that he had given ARRL access to the document and that they would use the material in the document to develop the article about MDARC. ARRL will submit the article that they develop for MDARC's review before publishing it.

Larry KK6QPE stated that Leanna Figlewski now has access to the photos that were sent.

10.6 **MDARC Shared Device and Company Asset Use Policy:** Antonis, AA6PP has scheduled a meeting on 06/02/2026 to discuss this policy.

10.7 San Ramon **Marriot** financial **concern:** Barbara reported that Management at the Marriott had assured her that they are doing just fine. Grant confirmed that this item can be removed from the agenda.

(continued on following page)

11 New Business:

11.1 **05/04/26 Board Meeting Minutes:**

"Barbara stated that she is planning to send announcements about meetings and events to the Diablo Gazette". This is pending for an update from Barbara.

12 Good of the Order: Nothing was heard.

13. Adjournment:

Mike W6MEW, seconded by Brian KM6NGS, proposed a motion to adjourn. The motion was carried unanimously.

Meeting Adjourned at 7:20pm.
